Client Case Study

COMPANY: National Charitable Organisation

LOCATION: Cork, Ireland

WHAT WAS INVOLVED:

A large Charitable Organisation providing essential support to the homeless, recognised the urgency of upgrading their office facilities. To address this critical need, Cronin Group Workplace Relocations Team stepped forward as volunteers.

KEY CONTRIBUTIONS:

- ▲ **Generous Donation:** A major international technology business generously contributed 100 workstations to the refurbishment project.
- ▲ **Efficient Logistics:** Our team meticulously collected and stored these workstations in our warehouse facility until the refurbishment was completed.

- ▲ **Logistical Challenges:** The process involved six 7.5-tonne truck deliveries to transport desks, pedestals, and chairs to our warehouse.
- ▲ **Timely Execution:** Despite the complexity, our team successfully completed each stage of the move within a single working day.
- ▲ **Positive Impact:** A modern, well equipped workspace, enabling staff to continue their valuable support for the homeless community in Ireland.

This endeavor exemplified an inspiring collaboration among various Irish businesses, and Cronin Group takes pride in being part of this impactful initiative.
